15-20% MORE TURNING POWER  
Handy Hanging Clip

QUALITY

LIFETIME  
WARRANTY

**Chrome Vanadium Non-Slip Design**  
**Provides Longer Life, Better Holding Power, Higher Quality**

- **Performance:** K-T Sockets feature a special non-slip design that drives the fastener from the sides of the hex instead of the corners. This allows up to 15-20% more turning power without rounding corners and destroying the fastener. Non-slip sockets also grip fasteners that were previously damaged by other tools. Chamfered recessed socket edges assure an easy fit on fasteners.
- **Quality:** Drop forged chrome vanadium alloy steel is one of the best and strongest alloys available. Because of this, we can offer a lifetime warranty on all K-T Sockets.
- **Convenience:** All sets feature a hanging clip to keep sockets neat and organized.

**1/4" DR. x 21 Pc. CHROME VANADIUM SAE AND METRIC SOCKET SET**

**Model No. 1-5221**

# NEW DEEP WELL METRIC SOCKETS

**These 1/2" DR. 12 PT. sockets are available in 21 sizes!**

Made of heat-treated Chrome Vanadium steel for strength and durability at the work site. Because of this, we can offer a lifetime warranty on all K-T sockets.

Rich chrome-plating protects K-T sockets from corrosion and makes easy for cleanup.
